**APPLICATION FOR CONNECTION TO SANITARY SEWER
MINIMUM SUBMISSION REQUIREMENTS**

Minimum Information Required for Initial Submission (Complete all check boxes):

- Completed Application for Connection to Sanitary Sewer form with required fees
- Site Plan showing all existing and proposed improvements and the proposed sewer connection. Fully engineered site plans are required for all connections requiring a pump. Hand sketches or other drawing methods prepared by a property owner are acceptable otherwise, provided all required information is included and legible. All site plans must at a minimum include the information and features listed below, with additional information for each as noted. Please write "N/A" next to any features which do not exist on the project parcel.
 - Name, street address and email address of the property owner, with site address if different
 - Date
 - Location and dimensions of property lines
 - Location and dimensions of existing and proposed buildings
 - Location and type of water supply and water supply lines
 - Stormwater management facilities, including drainage swales, if present
 - Driveways and parking areas
 - Location and dimensions of any existing or proposed easements and rights-of-way
 - Depth, materials and construction details for all proposed sewer connection components. Details applicable for typical gravity sewer connections are attached. Additional details will be provided upon request or addressed by review of an otherwise complete submission. Details may be incorporated by attachment to the Site Plan with a note referencing applicable details where an engineered Site Plan is not required.
 - Location of water bodies, wetlands and/or floodplains on the project parcel(s), if present.
 - Location of existing on-lot sewage system tank(s) and disposal area to be abandoned.
- The following minimum standard notes included on the Site Plan:
 1. All sanitary sewer construction shall be in accordance with the standards and specifications of Kennett Township and DEP.
 2. All sewer piping must be tested in the presence of the Township using the Township's standard procedures. A minimum of 72 hours advance notice to the Township is required.
 3. Shop drawings must be submitted to, and approved by, the Township for all materials, structures, equipment, piping and appurtenances for the sewer connection prior to ordering any of these items.
 4. A minimum of 10' horizontal separation must be provided between all sewer components and any water supply components.
 5. Provide 18" vertical clearance between sewer pipes and all utility crossings.

2 paper copies and 1 electronic copy of all plans and accompanying documents must be submitted. All plans must be folded, and electronic submissions must be provided on a flash drive or sent to the Township via email.

Applications that do not include all required minimum information may be returned without review.

**APPLICATION FOR CONNECTION TO SANITARY SEWER
MINIMUM SUBMISSION REQUIREMENTS**

Additional Information Required:

The requirements below may not be applicable to all projects or are items which may be addressed after initial application submission. Please check items as applicable if addressed in the initial submission.

- Pennsylvania Department of Environmental Protection (DEP) Act 537 approval. Written verification from DEP is attached that no Sewage Planning Module will be required for the proposed sewer connection. Required prior to permit issuance.
- Tapping Fees. The Tapping Fee is \$7,316 per EDU. All tapping fees must be paid prior to permit issuance.
- PennDOT Highway Occupancy Permit. Required for all work within the right-of-way of a State road.
- Kennett Township Road Occupancy Permit. Required for all work within the right-of-way of a Township road.
- DEP Permits. Required for some pump stations or any encroachment on streams, wetlands or other environmental features regulated by DEP.

Additional requirements as may be specific to a particular project will be identified in Township review of a complete initial submission, if not already included in the submitted permit package.

To Be Completed by Property Owner:

I have reviewed these requirements and certify that, to the best of my knowledge, all minimum information required for initial submission has been included. I further acknowledge that I am responsible for submitting all additional fees and information as may be required for the proposed sewer connection permit prior to permit issuance.
