

## Department Head Report

---

**Prepared By:** PJ Groff, Interim Public Works Director

**Date Prepared:** September 15, 2022

**Date Presented:** September 21, 2022

---

1. Road Paving is completed, Thanks to Longs Paving for a job well done.
2. Monday we will start putting topsoil and seed on the edges of two developments that were paved this year.
3. Crews finished two drainage swales with one more to be completed by the 9/22/22
4. Two times this past month we did visual inspections of three pieces of the sewer system, followed by an overnight inspection in the same areas. We also recorded over 1200' of sewer pipe during these visits.
5. South Street will be closed between Wayne Ave and Chandler Mill Rd starting tentatively the last week in September or the first week in October. This work will be nighttime operations from 6pm - 6am. Still finalizing some details but notifications have been made to both fire companies and police department.
6. Reminder: If you are having work done at your house by a contractor you have to ride with them, we are seeing a huge increase of contractors dumping at our yard waste site. We have millings back in stock.
