

Department Head Report

Prepared By: PJ Groff, Public Works Foreman

Date Prepared: October 14, 2022

Date Presented: October 19, 2022

1. The final round of road bank mowing was completed. Due to the lack of attention from PennDOT, we cut back most of their roads.
2. Crews finished grading/topsoil work on the newly paved roads.
3. With multiple storms come through the area, crews were out three times with down trees across roads. The team did a great job getting things cleaned up in short order
4. Crews will be out over the next month and a half to start tree trimming around the township with-in the right of ways, with the winter coming it a perfect time to get things cut back to allow the plows to get edge to edge.
5. Eagle Scout project at Barkingfeild: Two new dog waste stations, along with four bat boxes.
6. Bayard Estates Pump Station:
 - Replaced pump #2 due to moister/high temperature alarms.
